

Generating a Software License Key Code for the Polycom® KIRK® Wireless Server 600v3

Quick Guide

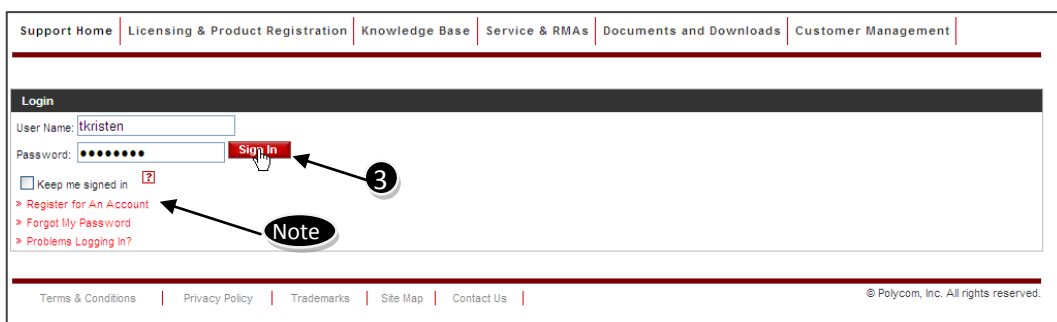

How to Generate a Software License Key Code

This Quick Guide explains how you generate a key code to use for the activation of a Polycom® KIRK® Wireless Server 600v3 software license.

- 1 Go to the Polycom Support Portal:
<http://support.polycom.com/PolycomService/home/home.htm>
- 2 Click **Activation Upgrade**.

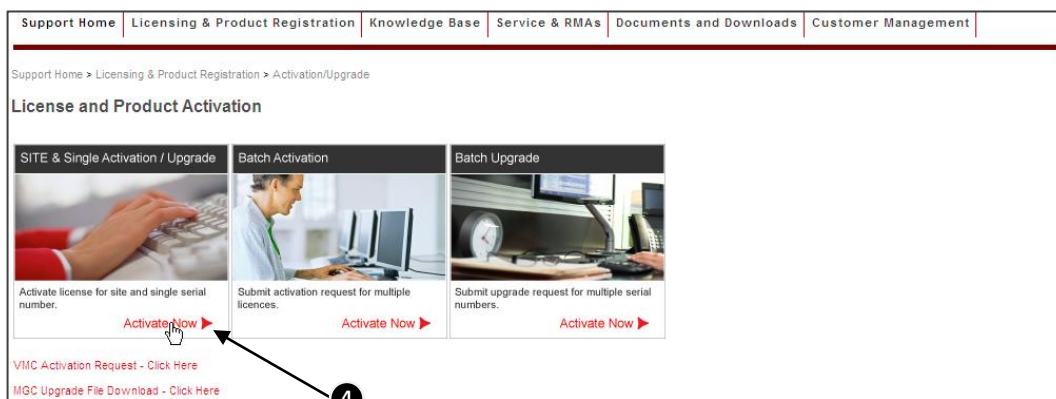

- 3 Enter your user name and password and click **Sign In** to enter the Polycom Support Portal.

Note: If this is the first time you visit the Polycom Support Portal, you need to create a user profile. Click **Register for an Account** and follow the instructions on the screen.

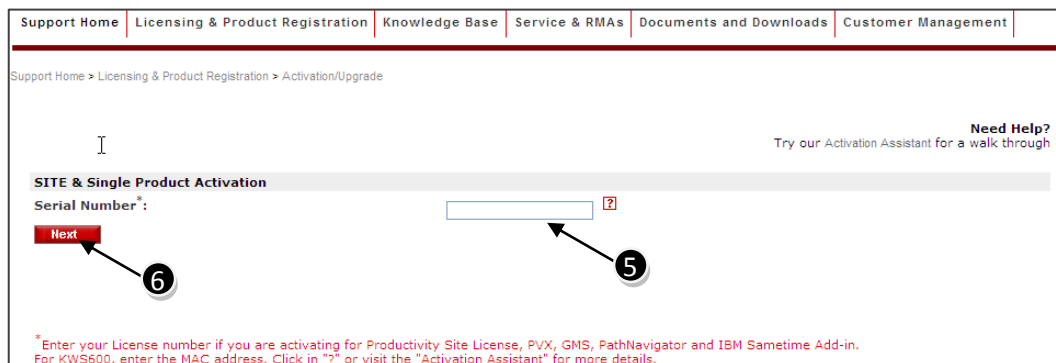

Generating a Software License Key Code for the Polycom® KIRK® Wireless Server 600v3

- 4 In the **Single Activation / Upgrade** window, click **Activate now**.

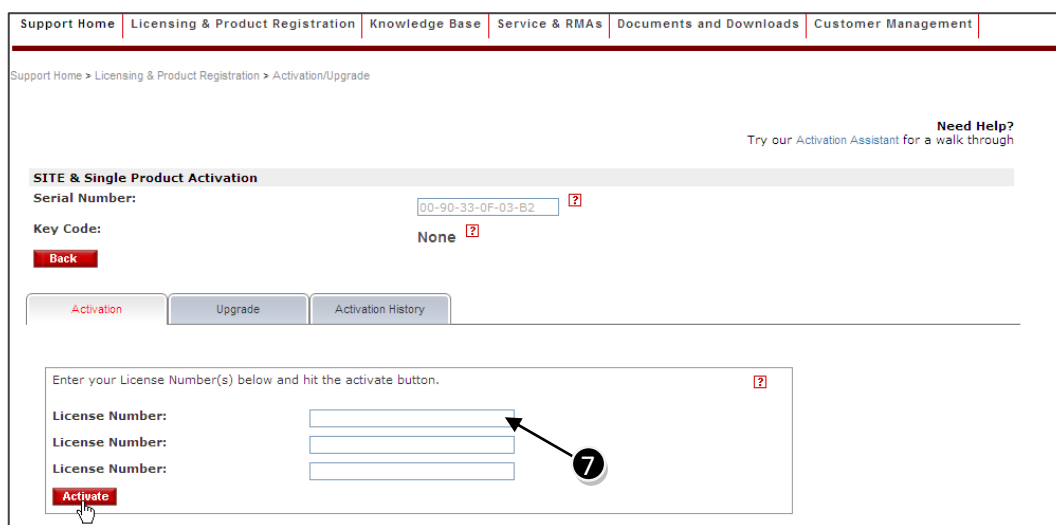

- 5 Enter the MAC address of your KIRK Wireless Server 6000 System. If needed, click the question mark for help.

- 6 Click **Next**.

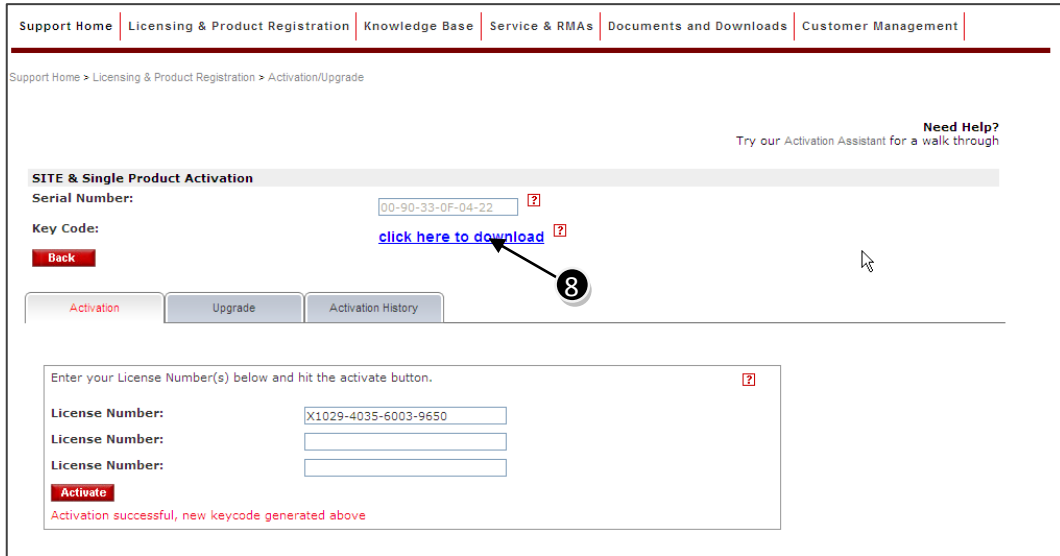

- 7 On the **Activation** tab, enter the license number of the solution to be upgraded and click **Activate**.

- 8 After successful activation, the text **click here to download** appears. Click this link to retrieve the key code and save it.

The screenshot shows the Polycom support website interface for activation. At the top, there is a navigation bar with links: Support Home, Licensing & Product Registration, Knowledge Base, Service & RMAs, Documents and Downloads, and Customer Management. Below this, the breadcrumb trail reads: Support Home > Licensing & Product Registration > Activation/Upgrade. On the right side, there is a 'Need Help?' link with the text 'Try our Activation Assistant for a walk through'. The main content area is titled 'SITE & Single Product Activation'. It contains a 'Serial Number:' field with the value '00-90-33-0F-04-22' and a help icon. Below it is a 'Key Code:' field with a blue link 'click here to download' and a help icon. A red 'Back' button is located to the left of the key code field. Below the key code field, there are three tabs: 'Activation' (selected), 'Upgrade', and 'Activation History'. At the bottom, there is a section for entering license numbers with the instruction 'Enter your License Number(s) below and hit the activate button.' and a help icon. It contains three 'License Number:' fields, the first with the value 'X1029-4035-6003-9650'. A red 'Activate' button is at the bottom left of this section, and a red message below it reads 'Activation successful, new keycode generated above'.
