

# Intel® TeamStation™ System

## System Quick Reference Guide

Use the table below to identify your version of the Intel® TeamStation™ System.

To find the product code and build number, launch your Intel TeamStation System software, then select the Intel TeamStation System icon (upper left corner of screen) from title bar. Next, select "About TeamStation System", then select the "Info" push button and you will see the build number and product code.

The version number is printed on the Intel TeamStation System CD-ROM that came with your system.

Product	Operating System	Product Code	Build Number	ISDN
3.0	Windows* 95	PCVD3013TSNM	3.0.1.103 and 3.0.1.122	128K
