

Poly TC8

This document covers Poly TC8 (Model P020).

Service Agreements

Please contact your Poly Authorized Reseller for information about service agreements applicable to your product.

Safety, Compliance, and Disposal Information

Class B Digital Device or Peripheral

This equipment is tested and complies with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Responsible Party issuing FCC Supplier's Declaration of Conformity

Polycom, Inc.

Part 15 FCC Rules

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

Modifications

In accordance with Part 15 of the FCC Rules, the user is cautioned that any changes or modifications not expressly approved by Polycom, Inc. could void the user's authority to operate the equipment.

Installation Instructions

Installation must be performed in accordance with all relevant national wiring rules.

L'Installation doit être exécutée conformément à tous les règlements nationaux applicable au filage électrique.

When using Power over Ethernet (PoE), the equipment is to be connected only to PoE networks without connections to the outside plant.

Lorsque vous utilisez une alimentation électrique par câble ethernet (PoE - Power over Ethernet), l'équipement doit être connecté uniquement aux réseaux PoE sans connexions vers l'extérieur de l'usine.

In addition, all PoE sources must meet the Limited Power Source requirements of IEC 60950-1:2005 (2nd Edition); Am1:2009 or IEC 60950-1:2005 (2nd Edition); Am1:2009; Am2:2013.

En outre, toutes les sources PoE doivent satisfaire aux exigences de source d'alimentation limitée de la IEC 60950-1:2005 (2ème édition); Am1:2009 ou IEC 60950-1:2005 (2ème édition); Am1:2009; Am2:2013; EN 62368:2014.

Plug Acts as Disconnect Device

The socket outlet to which this apparatus is connected must be installed near the equipment and must always be readily accessible.

La prise électrique à laquelle l'appareil est branché doit être installée près de l'équipement et doit toujours être facilement accessible.

Operating Ambient Temperature

- Operating temperature: +32 to 104°F (0 to +40°C)
- Relative humidity: 15% to 80%, non-condensing
- Storage temperature: -4 to 140°F (-20 to +60°C)

Industry Canada (IC)

This Class [B] digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe [B] est conforme à la norme NMB-003 du Canada.

CE Mark Declarations

Poly TC8 (P020) is marked with the CE mark. This mark indicates compliance with LVD and EMC Directives 2014/35/EC and 2014/30/EC, and RoHS Directive EU2015/863. A full copy of the Declaration of Conformity can be obtained from Polycom (NL) BV., Scorpius 171, 2132 LR Hoofddorp, NL. A full copy

of the TC8 (P020) Declaration of Conformity can be obtained from Polycom (NL) BV., Scorpius 171, 2132 LR Hoofddorp, NL.

Japan

この装置は、クラスB情報技術装置です。この装置は、家庭環境で使用することを目的としていますが、この装置がラジオやテレビジョン受信機に近接して使用されると、受信障害を引き起こすことがあります。
取扱説明書に従って正しい取り扱いをして下さい。 VCCI-B

WARNING Electrical Safety

Always read product documentation fully before connecting to a power source.

Safety Precautions

- This equipment is intended for indoor use only.
- Always disconnect the system from power and telecommunications network before cleaning or servicing.
- In order to remove all power from this unit, remove all power cords.
- Do not spray liquids directly onto the system when cleaning. Always apply the liquid first to a static-free cloth.
- Do not immerse the system in any liquids or place any liquids on it.
- Do not disassemble this system. To reduce the risk of shock and to maintain the warranty on the system, a qualified technician must perform service or repair work.
- There are no user serviceable parts inside this product.
- If the product is intended to be powered by an external power supply then use only the type which is supplied with this product.
- If the product is intended to be powered using PoE then ensure that an appropriately approved networking device is used.
- This equipment is not intended to be operated by children.
- Users must not service any parts in compartments that require a tool to access.
- Do not use a power cord that is damaged. This could cause fire or electric shock. Contact the manufacturer for a replacement cord, if necessary.
- Only use a power cord that is appropriately rated and approved relevant to the country of use.
- This equipment should be used only on even surfaces.

External Power Supplies

This product must only be used with an external power supply of the type and specification provided with it. Replacement external power supplies can be obtained from the supplier of your Polycom equipment.

PoE Products

Products that are designed to be connected to a Power over Ethernet source must only be connected to a IEEE 802.3af compliant Power over Ethernet (PoE) power source or an IEC60950 limited power source.

The power plug-wall socket combination acts as a disconnection device and must be accessible at all times.

Power Cables

Only use the power cables that are supplied with this product; these are correctly rated for this product.

Installation of the equipment should be carried out by suitably trained people, and must comply with the appropriate local and national electrical codes.

Restriction of Hazardous Substances Directive (RoHS)

Poly products are fully compliant with the requirements of the RoHS 3 (EU 2015/863).

For more information and details of the EU exemptions that are used for this product, please contact TypeApproval@poly.com.

EU WEEE – End of Life products

Poly encourages you to recycle your end-of-life Poly products in an environmentally considerate way. In accordance with the requirements of the European Waste Electronic and Electrical Equipment (WEEE) Directive, all Poly products are marked with the crossed wheeled bin symbol shown to the left. Products that carry this symbol should not be disposed of in the household or general waste stream. Detail of the options open to you and the guidance on the requirements for the recycling and environmentally considerate disposal of your end of life Poly products can be found at <http://www.polycom.com/WEEE>.

Polycom Take Back

In addition to any mandated take back requirement, Polycom offers free recycling of its branded products to business users. Detailed information is available at <https://www.polycom.com/company/about-us/recycle-program.html>.
