**Trademarks** Polycom®, the Polycom logo and the names and marks associated with Polycom products are trademarks and/or service marks of Polycom, Inc., and are registered and/or common law marks in the United States and various other countries.

All other trademarks are property of their respective owners. No portion hereof may be reproduced or transmitted in any form or by any means, for any purpose other than the recipient's personal use, without the express written permission of Polycom.

**Disclaimer** While Polycom uses reasonable efforts to include accurate and up-to-date information in this document, Polycom makes no warranties or representations as to its accuracy. Polycom assumes no liability or responsibility for any typographical or other errors or omissions in the content of this document.

**Limitation of Liability** Polycom and/or its respective suppliers make no representations about the suitability of the information contained in this document for any purpose. Information is provided "as is" without warranty of any kind and is subject to change without notice. The entire risk arising out of its use remains with the recipient. In no event shall Polycom and/or its respective suppliers be liable for any direct, consequential, incidental, special, punitive or other damages whatsoever (including without limitation, damages for loss of business profits, business interruption, or loss of business information), even if Polycom has been advised of the possibility of such damages.

**End User License Agreement** By installing, copying, or otherwise using this product, you acknowledge that you have read, understand and agree to be bound by the terms and conditions of the End User License Agreement for this product. The EULA for this product is available at <http://documents.polycom.com/indexes/licenses>.

**Patent Information** The accompanying product may be protected by one or more U.S. and foreign patents and/or pending patent applications held by Polycom, Inc.

**Open Source Software Used in this Product** This product may contain open source software. You may receive the open source software from Polycom up to three (3) years after the distribution date of the applicable product or software at a charge not greater than the cost to Polycom of shipping or distributing the software to you. To receive software information, as well as the open source software code used in this product, contact Polycom by email at [OpenSourceVideo@polycom.com](mailto:OpenSourceVideo@polycom.com).

**Customer Feedback** We are striving to improve our documentation quality and we appreciate your feedback. Email your opinions and comments to [DocumentationFeedback@polycom.com](mailto:DocumentationFeedback@polycom.com).

**Polycom Support** Visit the [Polycom Support Center](#) for End User License Agreements, software downloads, product documents, product licenses, troubleshooting tips, service requests, and more.

# Polycom® RealAccess™ Release Notes

## Release History

The following table shows the RealAccess release history.

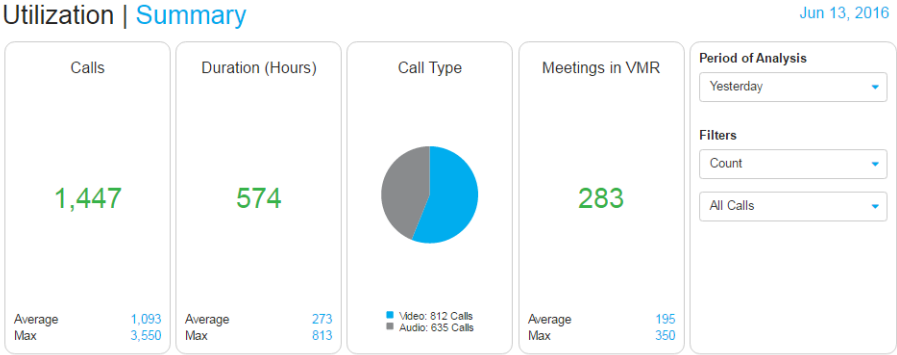

### Release History

Release	Release Date	Features
1.8	June 2016	<ul style="list-style-type: none"><li>• Call Type graph added to Utilization   Summary page</li><li>• Call Type graph added to Utilization   Monthly page</li></ul>
1.7	April 2016	<ul style="list-style-type: none"><li>• Network Summary</li><li>• Conference Utilization</li><li>• Concurrent Connections</li><li>• Feature enhancements</li></ul>
1.6.2	March 2016	<ul style="list-style-type: none"><li>• Enhanced error messages</li><li>• New filters on VRM Utilization report</li></ul>
1.6	February 2016	Major features include: <ul style="list-style-type: none"><li>• VMR utilization filters</li><li>• Monthly utilization filter</li><li>• List View export function</li></ul>
1.5	December 2015	Major feature is Self-Service Onboarding and updates to user flows in Analytics.
1.4	October 2015	Major feature is a new Endpoint Dashboard page on the Utilization tab.
1.3	September 2015	Major features include a new Summary page on the Performance tab; a tool to test RealAccess connectivity; and a Help button for documentation.
1.2	July 2015	Major features include more analytics tools on the Utilization tab.
1.1	May 2015	Major features include enhanced Asset Management and Capacity tabs and new Support page tools.
1.0	April 2015	Initial release.

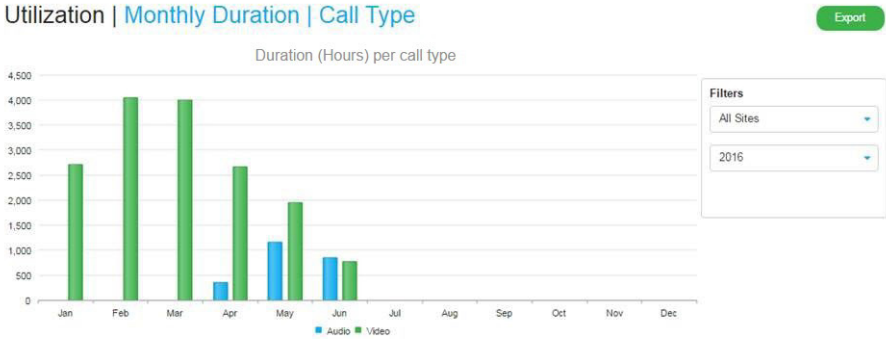

# What's New in Release 1.8

Polycom® RealAccess™ Release 1.8 includes the features and functionality of previous releases as well as the following:

- Call Type graph added to the **Utilization | Summary** page compares audio and video usage

- Call Type graph added to the **Utilization | Monthly Duration** page compares audio and video usage

## Service Requirements

Using RealAccess requires meeting the platform, system, server, and browser requirements. Please refer to the *Polycom® RealAccess™ Deployment Guide* for instructions

### Note: Before using RealAccess

To use RealAccess, you must first deploy the RealAccess portal agent. Please refer to the *Polycom® RealAccess™ Deployment Guide* for instructions.

## Platform Requirements

The RealAccess portal monitors components of the Polycom® RealPresence® Platform, which enables standards-based videoconferencing collaboration using hardware and software endpoints from Polycom and other optional vendors.

Depending on your network setup, RealAccess monitors some or all of the components listed in the following table.

### RealPresence Platform Components Required by RealAccess

Required/Optional	Component	Version	Description
Required	RealPresence DMA	v6.2.1.1 or better (recommended)	Signaling, call control, and bridge virtualization
Required	RealPresence Resource Manager with API license	<ul style="list-style-type: none"> <li>RPRM 8x with API</li> <li>RPRM 9.0 no API License</li> </ul>	Provisioning, managing endpoints, and scheduling meetings
<ul style="list-style-type: none"> <li>Optional for portal</li> <li>Required for VMR</li> </ul>	Polycom® RealPresence® Collaboration Server (RMX®)	v8.2.0 or better	Polycom Multipoint Control Unit (MCU) for hosting conferences

## Browser Requirements

The RealAccess portal delivers detailed reporting information about your RealPresence video network using a data extraction agent that is installed on-premises.

The following table details the minimum browser requirements for the RealAccess portal agent.

### RealAccess Portal Agent Minimum Browser Requirements

Browser	Requirement
Microsoft Internet Explorer®	v10.0 or higher
Mozilla Firefox®	Current version
Google Chrome™	Current version
Apple® Safari®	Current version

## Microsoft Browser Limitations

Enterprise security policies that use Internet Explore require adding realaccess.polycom.com as a trusted site in the **Internet Options > Security Tab > Trusted sites > Sites**.

Microsoft Edge is not supported in RealAccess.

## Products Tested with This Release

### Note: Hyper-V/VMware environments

Polycom supports mixed Hyper-V/VMware environments, but Polycom has not tested all configurations/combinations.

RealAccess systems are tested extensively with a wide range of products. While the following list is not a complete inventory of compatible equipment, it indicates the products that have been specifically tested for compatibility with this release.

### Products Tested with this Release

Product	Tested Versions
Polycom RealPresence DMA	6.3.0
Polycom RealPresence Resource Manager	9.0.0 <sup>a</sup>
Polycom RealPresence Collaboration Server (RMX)	8.6
Polycom® RealPresence® Access Director™	4.2
Polycom® RealPresence® CloudAXIS® Suite	1.7.0
Polycom® RealPresence® Capture Server	1.8

a. API requires administrator privileges.

### Note: Supported products

You are encouraged to upgrade all your Polycom systems with the latest software before contacting Polycom support to ensure the issue has not already been addressed by vendor software updates.

Go to [Polycom Support Service Policies](#) to find the current *Polycom Interoperability Matrix*.

## Known Issues and Limitations

The following tables list all known issues and limitations, including available workarounds, in this and previous releases of RealAccess.

### Known Issues

This section lists all known issues in this release of RealAccess.

#### Known Issues with RealAccess

Category	Issue No.	Description	Workaround
User Experience	PHNX-69	An endpoint that is removed from the Resource Manager still appears on the Assets tab of the portal.	No workaround in this release.
User Experience	PHNX-101	On the <b>Utilization &gt; Summary</b> menu of the portal, total Calls and Duration are incorrect when the Period of Analysis is filtered by Yesterday, Last Week, Last Month, Last 30 Days, and Custom. This is because only point-to-point and VMR calls are listed. In this release, other call types such as VMR-Lync AVMCU are not considered.	No workaround in this release.
User Experience	PHNX-127	On the Tutorial Library page, there are no videos for Lync 2013, RealPresence Desktop, or RealPresence Mobile.	No workaround in this release.
User Interface	PHNX-108	The Privacy Policy displays in English when Korean or Brazilian Portuguese are selected.	No workaround in this release.

## Limitations

This section lists all known limitations in this release of RealAccess.

### Known Limitations with RealAccess

Category	Description	Workaround
User Experience	Some equipment listed on the <b>Asset &gt; Models</b> page has the same display name. For example HDX8000 HD and POLYCOMHDX800 HD both display as "HDX8000."	No workaround is available.
User Experience	SIP calls are not listed on the <b>Utilization &gt; Summary</b> and <b>Utilization &gt; List View</b> and <b>Endpoint Dashboard</b> pages, but SIP call details do display on the <b>Utilization &gt; Trends</b> page.	No workaround is available.
Browser	The user interface intermittently misaligns when using Internet Explorer 10 or 11.	Use another browser such as Chrome, Firefox, or Safari.
Interoperability	On the <b>Assets &gt; Models</b> menu of the portal, there is no Location information displayed for Cisco endpoints. This is because Cisco endpoints, like other non-Polycom endpoints, do not provide location information.	No workaround is available.
User Experience	A point-to-point call from a registered RealPresence Desktop endpoint to a nonregistered HDX endpoint does not appear in reporting data on the portal.	No workaround is available.
User Experience	Utilization Summary and Endpoint Dashboard show inconsistent call counts for room.	No workaround is available.
User Experience	You must wait 24 hours after deploying RealAccess before the Analytics functionality is available.	No workaround is available.

## Resolved Issues

There are no resolved issues for RealAccess in this release.

## Get Help

For more information about installing, configuring, and administering Polycom products, refer to **Documents and Downloads** at [Polycom Support](#).

For information about RealAccess security, refer to the *Polycom RealAccess Security White Paper*.

## Polycom and Partner Resources

To find all Polycom partner solutions, see [Strategic Global Partner Solutions](#).

## The Polycom Community

The [Polycom Community](#) gives you access to the latest developer and support information. Participate in discussion forums to share ideas and solve problems with your colleagues. To register with the Polycom Community, simply create a Polycom online account. When logged in, you can access Polycom support personnel and participate in developer and support forums to find the latest information on hardware, software, and partner solutions topics.
