## What’s New in This Release

This release contains the following new features for the Poly Studio USB video bar. See the [Polycom Companion User Guide](#) for detailed information about the new feature.

- [Support for Device Diagnostic Code](#)
- [Support for Open Wi-Fi Networks](#)

## Support for Device Diagnostic Code

Polycom Companion can report values for the **Device Diagnostic Code**, which can help Poly Support debug Poly Studio USB video bar internal issues. You can find this field on the **Status** section.

If you see the following warning message in the **Status** section, contact Poly Support to report the issue and the values of the **Device Diagnostic Code** field: ***There is an internal issue with your device. Please contact Poly support.***

If there is no warning message, you can ignore the **Device Diagnostic Code** field.

## Support for Open Wi-Fi Networks

Poly Studio can connect to an open Wi-Fi network without password protection:

- If you can find the unlocked SSID in the **Wi-Fi Name** drop down list on the **Admin Settings > Wi-Fi Settings** page, you can connect to the network by clicking the SSID.
- If you can't find the Wi-Fi network that you want to connect to from the **Wi-Fi Name** drop down list, use the following steps to connect to the open Wi-Fi network:
  1. Select **Join Other Network** and specify the network name manually in the **SSID** field.
  2. Select the **None** item from the **Security** drop-down list on the **Find and Join a Wi-Fi Network** dialog.
  3. Select **Join**.

## Products Tested with This Release

Poly products are tested extensively with a wide range of products. The table below lists the products that have been tested for compatibility with this release.

Poly strives to support any system that is standards-compliant, and Poly investigates reports of Poly systems that do not interoperate with other standards-compliant vendor systems.

Note that the following list is not a complete inventory of compatible equipment, but the products that have been tested with this release.

### Products Tested with This Release

<i>Product</i>	<i>Tested Versions</i>
Polycom EagleEye Mini USB camera	9.0.23
Poly Studio USB video bar	1.3.1

<i>Product</i>	<i>Tested Versions</i>
Poly EagleEye Cube USB camera	1.3

## Resolved Issues

There are no issues resolved in this release.

## Known Issues

This section identifies the known issues in this release.

---

**IMPORTANT:** These release notes do not provide a complete listing of all known issues for the software. Issues not expected to significantly impact customers with standard voice and video conferencing environments may not be included. In addition, the information in these release notes is provided as-is at the time of release and is subject to change without notice.

---

### Known Issues

<i>Category</i>	<i>Issue ID</i>	<i>Found in Release</i>	<i>Description</i>	<i>Workaround</i>
Installation	EN-117731	1.1	You can't install the application by clicking <b>Run</b> after downloading <code>PolycomCompanionSetup.exe</code> from a Microsoft Edge browser.	Select <b>Save</b> or <b>Save as</b> to save the installation package to your local disk, then install it from Windows File Explorer.
Settings	EN-165360	1.4	(Polycom Companion for Mac only) You can't change the <b>Enable Stereo Audio</b> setting.	Change the setting using Polycom Companion for Windows.

## System Constraints and Limitations

This section identifies the limitations and constraints when using this product.

### ***Polycom Companion for Mac Compatibility with Microsoft Skype for Business***

Polycom Companion for Mac doesn't work when Microsoft Skype for Business is running. Exit Skype for Business before using Polycom Companion.

---

## Installation

Issue ID EN-141613. The anti-virus software Avast may prevent the Polycom Companion App from installing until the Companion App passes its sanity check. This check may take hours.

---

**Caution:** Don't unplug the USB cable or power cable for the Poly Studio USB video bar or Poly EagleEye Cube USB camera while changing settings on Polycom Companion. This may cause unexpected errors.

---

## Get Help

For more information about installing, configuring, and administering Poly products or services, go to the [Poly](#) site, click Support, and choose the option best suited to your needs.

## Related Poly and Partner Resources

See the following sites for information related to this product.

- The [Poly Online Support Center](#) is the entry point to online product, service, and solution support information including Licensing & Product Registration, Self-Service, Account Management, Product-Related Legal Notices, and Documents & Software downloads.
