## Offer of Source for Open Source Software

You may have a Poly system or device that contains software from the open source community that must be licensed under the specific license terms applicable to the software. For at least three years from the date of distribution of the applicable product or software, we will give to anyone who contacts us using the contact information provided below, for a charge of no more than our cost of physically distributing, one of the following items (a) A copy of the complete corresponding machine-readable source code for programs listed in this document or (b) A copy of the corresponding machine-readable source code for the libraries listed in this document, as well as the executable object code of the Poly work with which that the library links.

The software included or distributed for the systems, including any software that may be downloaded electronically via the internet or otherwise (the "Software") is licensed, not sold.

# Open Source Software

The systems use several open source software packages. The packages containing the source code and the licenses for all the open-source software are available upon request by contacting [Open.Source@polycom.com](mailto:Open.Source@polycom.com).

This document covers the following products:

- [Poly G7500, Poly Studio X50, and Poly Studio X30](#)
- [Poly Microphone IP Adapter](#)
- [Poly IP Table Microphone and Poly IP Ceiling Microphone](#)
- [Poly TC8 and Poly Control Application](#)

## Qualcomm Platform Licenses

For a list of all licenses included in the Qualcomm platform, see the attachment: NOTICE.xml.gz.

**Note:** You may have to save this document to your local system to access the file.

## List of Open Source Software

The following sections include license information for the open source software packages used in this version of the software.

### Poly G7500, Poly Studio X50, and Poly Studio X30

The following table contains license information for the open source software packages used in the Poly G7500, Poly Studio X50, and Poly Studio X30 systems. The source code and the licenses for all the open-source software are available upon request.

#### Poly G7500, Poly Studio X50, and Poly Studio X30 Systems

## Get Help

For more information about installing, configuring, and administering Poly/Polycom products or services, go to the [Poly Online Support Center](#).

## Related Poly and Partner Resources

See the following sites for information related to this product.

- The [Poly Online Support Center](#) is the entry point to online product, service, and solution support information including Video Tutorials, Documents & Software, Knowledge Base, Community Discussions, Poly University, and additional services.
- The [Polycom Document Library](#) provides support documentation for active products, services, and solutions. The documentation displays in responsive HTML5 format so that you can easily access and view installation, configuration, or administration content from any online device.
- The [Poly Community](#) provides access to the latest developer and support information. Create an account to access Poly support personnel and participate in developer and support forums. You can find the latest information on hardware, software, and partner solutions topics, share ideas, and solve problems with your colleagues.
- The [Poly Partner Network](#) are industry leaders who natively integrate the Poly standards-based RealPresence Platform with their customers' current UC infrastructures, making it easy for you to communicate face-to-face with the applications and devices you use every day.
- The [Polycom Collaboration Services](#) help your business succeed and get the most out of your investment through the benefits of collaboration.

## Privacy Policy

Poly products and services process customer data in a manner consistent with the [Poly Privacy Policy](#). Please direct comments or questions to [privacy@poly.com](mailto:privacy@poly.com).
