

Polycom® RealPresence® CloudAXIS™ Suite OFFER of Source for GPL and LGPL Software

You may have received from Polycom®, certain products that contain—in part—some free software (software licensed in a way that allows you the freedom to run, copy, distribute, change, and improve the software).

As a part of this product, Polycom may have distributed to you software, or made electronic downloads, that contain a version of several software packages, which are free software programs developed by the Free Software Foundation. With your purchase of the Polycom RealPresence® CloudAXIS™ Suite, Polycom has granted you a license to the above-mentioned software under the terms of the GNU General Public License (GPL), GNU Library General Public License (LGPLv2), GNU Lesser General Public License (LGPL), or BSD License. The text of these Licenses can be found at the internet address provided in Table A.

For at least three years from the date of distribution of the applicable product or software, we will give to anyone who contacts us at the contact information provided below, for a charge of no more than our cost of physically distributing, the following items:

- A copy of the complete corresponding machine-readable source code for programs listed below that are distributed under the GNU GPL
- A copy of the corresponding machine-readable source code for the libraries listed below that are distributed under the GNU LGPL, as well as the executable object code of the Polycom work that the library links with

The software included or distributed for the product, including any software that may be downloaded electronically via the internet or otherwise (the "Software") is licensed, not sold. The customer may modify any of the Libraries listed below licensed under the GNU LGPL, and then re-link to produce a modified executable containing the modified Library. Customers who choose to modify the original software delivered by Polycom for the product void all WARRANTY, SERVICE and SOFTWARE SUPPORT agreements.

Contact Information for Requesting Source Code

Polycom Inc.,
 6001 America Center Drive
 San Jose, California
 95002
 E-mail: Open.Source@polycom.com

Table A: Open Source Software Packages Used in Polycom RealPresence CloudAXIS Suite
