

Patch Notes

Polycom[®] RealPresence[®] Collaboration Server

Build ID: 8.8.1.4128
Released File: OVA, ISO, BIN, QCOW2, Upgrade File
Release Date: July 30th, 2021

Purpose

This patch includes fixes for the following issues when applied over the RealPresence Collaboration Server 8.8.1.7 release.

<i>Issue ID</i>	<i>Category</i>	<i>Description</i>
EN-201187	Application	A SoftMCU fails to process WebRTC calls promoted to the RMX system.
EN-200339	Stability	The translator logs fail to get archived properly and cause disk space issues.
EN-182590	Application	WebRTC calls fail on SoftMCU, leading to a call failure penalty.
EN-200404	Video	The RMX system keeps refreshing video of two participants in 12+1 layout conferences and the two cells keeps swapping with each other.
EN-204862	Audio	No audio for all participants in personal VMRs on an RMX 1800 system.
EN-199568	User Interface	Security banner doesn't work on an RMX 1800 system.
EN-206127	Content	When content is shared in Zoom calls, the RMX system doesn't open a Content Channel in cascade to the Zoom call until the content is stopped and reshared.
EN-201623	Video	The RMX system displays the number of Audio/Video participants received from the Poly DMA system for a single (cascaded) conference in the corresponding video layout icons. If there are more than 511 Audio/Video participants, the corresponding participant count value will be displayed as 511 only.
EN-190864	Video	A SoftMCU now periodically sends requests for intra frame based on a configurable timer interval, resulting in improved video quality for WebRTC calls.

These patch notes document only the changes from the preceding Generally Available (GA) release. Refer to the Release Notes for that GA release for the complete release documentation.

Prerequisites and Configuration Considerations

For information on prerequisites and configuration, please refer to the *Polycom RealPresence Collaboration Server v8.8.1 Release Notes* and *Polycom RealPresence Collaboration Server 8.8.1 Administrator Guide*.

Installation and Upgrade Notes

For information on installation or upgrade, please refer to the Polycom RealPresence Collaboration Server 8.8.1/8.8.1.4 Release Notes.
