Show or hide your local video

Search the Directory

Hang up the call

Adjust the volume

Mute your microphone

Select a camera

Show a presentation

## What is CMA Desktop?

With Polycom CMA Desktop, you can connect to anyone else who is using Polycom CMA Desktop or other types of video conferencing systems. You can show presentations and other content to participants in video calls, and you can also chat with Polycom CMA Desktop users who share presence with you. Polycom CMA Desktop Contacts who don't yet have cameras can still chat and participate in calls.

For help with Polycom CMA Desktop, click the application menu and choose **Help**, or press **COMMAND+SHIFT+H**.

## Signing In

Depending on how your Polycom CMA Desktop network settings are configured, your Polycom CMA Desktop user name and password may be provided automatically. If they are provided automatically, just click **Sign In**.

You can also choose to enter your user name and password manually.

- 1 Enter your Polycom CMA Desktop user name and password.

All Polycom CMA Desktop user names are in the format `YourDomain\YourUserName`. Contact your Polycom CMA Desktop administrator for help with your user name.

- 2 Click **Sign In**.

## Answering a Call

Do one of the following:

- Click **Answer** to accept the call.
- Click **Ignore** to refuse the call.

## Adding People to Your Contacts List

- 1 Click  to open the Directory.
- 2 Start typing a name. You see entries that contain the characters you enter as you type.
- 3 Click a name and then click **Add to Contacts**.
- 4 Polycom CMA Desktop sends an invitation to be on your Contacts list, and your new Contact is identified with . When the invitation is accepted, the icon changes to show presence.

## Understanding Presence Icons

	Available for a video call.
	Available for a video call, but currently idle.
	No presence is available for this video system, but system can be called.
	In a video call and able to accept an additional call.
	In a video call or not accepting calls (Do Not Disturb).
	Offline, no video or chat is available.
	Invited to join your Contacts list. No presence is yet available.
	Available to chat.
	Available to chat, but currently idle.

## Placing a Call

### From Your Contacts List:

Do one of the following:

- Double click a Contact to place a video call. If video is not supported, an audio call starts. If neither is available, the chat window opens.
- Click  to place a video call or click  to chat.
- If CMA Desktop is configured to include Recent Calls as a Contacts list group, click  to open the Recent Calls group, and click a Contact.

### From the Directory:

- 1 Click  and start typing the name you want to find.
- 2 Click a name and then click **Call** to start the call.
- 3 If the person has a video conferencing system as well as Polycom CMA Desktop, choose which to call.

### By Entering the Information Manually:

- 1 Type the calling information in the field at the bottom of the main window. As you type, the system finds matching entries from your Contacts list and your Recent Calls. If the system finds the name you want, click to select it.
- 2 Specify whether you want to use H.323 or SIP for the call. (optional)
- 3 Click  to start the call.

### By Calling a Virtual Meeting Room on a Bridge:

- 1 Do one of the following:
  - If Polycom CMA Desktop and the virtual meeting room are registered to the same Polycom CMA server, enter the extension (E.164 address).
  - Enter the address in this format: E.164@IP\_Address. For example, 1000@11.12.13.14.
  - Enter the address in this format: IP\_Address##E.164. For example, 11.12.13.14##1000.
  - Double-click a Callto: link in a meeting invitation.
- 2 Click  to start the call.

## Using the In-Call Toolbar

	Hang up the call.
	Open the chat window.
	Adjust the volume.
	Mute your microphone.
	Select a camera.
	Show a presentation.
	Toggle the Picture-in-Picture (PIP).
	View full-screen video.
	Adjust the far-end camera.
	Display the tone pad.

## Showing a Presentation

- 1 Click  on the toolbar.
- 2 Do one of the following:
  - Click  **Send Monitor**. If your computer is running in dual monitor configuration, click  for the monitor you want to show.  
The other sites see the content as it appears on your monitor.
  - Click  **Zoom** to display the selection rectangle and adjust it, if necessary.  
The other sites see only the content enclosed by the selection rectangle.
