

# Patch Notes

## RealPresence Access Director

---

**Patch ID:** 4.2.2.0.2 (4.2.2 HF2)  
**Affected version:** RPAD 4.1 to 4.2.2 Upgrade path  
**Release date:** 1/8/2015

### Purpose

This hot-fix patch is to address the following issues:

- If you are running RPAD 4.1 and if you try to upgrade to RPAD version 4.2.2 directly, there is an issue where the upgrade stops prematurely and you won't get back access to the UI.

### Prerequisites and Configuration Considerations

Pre-requisites: 4.1

Use the .bin file if upgrading from 4.1.0

Use the .upg file if upgrading from 4.2.x

### Installation Notes

- Please take a **backup of the configuration** and download it onto a local pc or server before proceeding with the upgrade.

This patch fixes the following ticket:

Issue #	Description
EDGE-1742	After upgrading from 4.1 to 4.2.2 directly, UI is no longer accessible
